Courtesy Translation

This certificate is issued in accordance with Decree 2002-535 dated April 18, 2002 as modified relative to the evaluation and certification of the security offered by information technology products and systems.

Secrétariat général de la défense et de la sécurité nationale, Agence nationale de la sécurité des systèmes d'information

51, boulevard de La Tour-Maubourg, 75700 PARIS 07 SP

The product subject to this certification has been evaluated by THALES/CNES, located in France, by applying the *Common Methodology for Information Technology Security Evaluation*, version 3.1, revision 5, according to the Common Criteria, version 3.1, revision 5.

This certificate applies only to this specific product version in its evaluated configuration. It cannot be separated from its full certification report. The evaluation was carried out in accordance with the provisions of the SOG-IS, the CCRA and the French scheme. The evaluation facility's findings, formulated in the evaluation technical report, are consistent with the provided evidence.

This certificate does not in itself constitute a recommendation of the product by *l'Agence nationale de la sécurité des systèmes d'information* and does not guarantee that the certified product is completely free of exploitable vulnerabilities.
